

**TOWNSHIP OF PILESGROVE  
APPLICATION FOR ZONING PERMIT  
WETLANDS  
ADDITIONAL INFORMATION REQUIREMENTS**

Should your property have or be suspected of having wetlands or wetland transition areas one of the following must be submitted with you Application for Zoning Permit:

1. An NJDEP Letter of Interpretation or presence/absence determination that confirms that there are no wetlands or transition areas within the proposed limit of disturbance.
2. A Wetlands Investigation Report, including qualifications, plan showing proposed limit of disturbance, narrative report, soil logs, and certification by a New Jersey professional engineer. The certification should state that the investigation was performed in accordance with NJDEP criteria for delineation of wetlands, and that no wetlands or transition areas exist within the proposed limit of disturbance. The certification should further state that the certifying engineer assumes responsibility for compliance with NJDEP regulations.

All Wetlands Investigation Reports will be submitted to the Township Engineer for review.
